The process is as follows:

A User has to be registered (Step 2).

In case of a provision of Web Map Service License, which is not available for any User after license concluding (wms of INSPIRE conformed Road Transport Network Data), the User is obliged to write a request to [infoCDB@ssc.sk](mailto:infoCDB@ssc.sk). There must be given what particular Data is the User requesting, for what purpose, the extent of Data according to Slovak Road Network and the type of coordinate system.

After the request is registered, either a process of License Agreement concluding will be initiated based on the content of the request and the proper Web Map Service will be prepared or the proper Web Map Service will be prepared without Duty of License Agreement (only license concluding is needed).

The next Steps are as follows:

In case the User is already registered (Step 2), the license concluding is to be done:
